

# Calbourne Water Mill

## Visitor Charter

### Be a responsible Visitor - Seven things you can do to help save the planet

- **Conserve energy** - Reduce energy by switching off lights and closing windows if heating is on. The energy Saving Trust provides information on what you can do at home.
- **Give the car a rest** - Leave the car behind, if only for a day, walk, cycle or use public transport.
- **Shop & Dine local** - use local products, they give you a flavour of the area and help support our local community. We are fortunate to have some fantastic producers of food, drink, and arts & crafts on the Isle of Wight. Try our own homemade produce including our, bread, cakes, porridge and muesli. We would encourage you to support the local pubs, restaurants and cafes.
- **Reduce, reuse, recycle** - Try to avoid overly packaged goods and say no to that extra carrier bag. Please use the recycle bins provided and we would encourage you to use the waste food bin. Please leave hazardous waste such as batteries with us for safe disposal at our local recycling centre.
- **Be water wise** - Please use water wisely. Turn off the tap when brushing your teeth and only use the towels required to reduce the laundry.
- **Respect nature** - Help us to look after the landscape and Wildlife by not littering, guarding against fire and using footpaths and cycle ways responsibly
- **Support Green Tourism Business** - There are hundreds of businesses trying to reduce their environmental impacts through the green Tourism Business Scheme. Businesses are awarded bronze, silver and gold for their efforts to be more environmentally responsible. See [www.green-business.co.uk](http://www.green-business.co.uk) for more information

And most importantly, have a good time when you are here;  
we'd like you to come back
